

# *The Art of Sustainability*

CSI NE Region Conference 2015

## About the Event

The annual Northeast Region CSI Conference is an opportunity for members of the construction industry to get together for networking, education, leadership development and fun. Over 400 construction professionals participated in last year's conference activities and trade show in Rochester, NY. While we don't expect quite as large a turnout in Williamstown in 2015, we do expect a large number of industry leaders and decision makers from around the Northeast.

The conference will kick off on Thursday with a golf outing. This will be followed by Region Board and Committee activities and the evening Welcome Reception.

Friday Morning will feature technical seminars focused on The Art of Sustainability. These will focus on the recently completed LEED Silver campus of the Clark Art Institute. After the luncheon and keynote, we'll hold the Trade Show, Cocktail Party and annual Scholarship Auction at the Williams Inn.

Saturday morning brings the conference's CSI leadership activities including the Annual Meeting of the membership, an Institute Update and Leadership Workshops. This will be followed by the Annual Awards Luncheon and finally the Region Board Meeting.
